

**„Active citizenship and environmental awareness
through formal and non-formal education”**

(ACEAFNE)

2015-2017

ERASMUS+ Program

Peter Scott, one of the founders of World Wide Fund for Nature, (WWF), said:

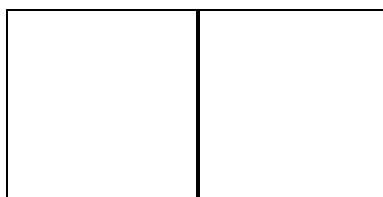

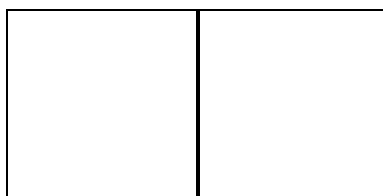

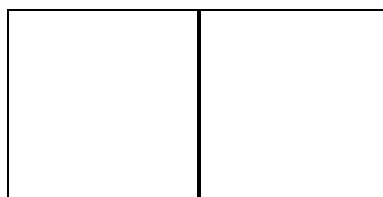

**„The most important thing that we have to do, if we want to save
the world, is to educate.”**

March and April 2016

Romania

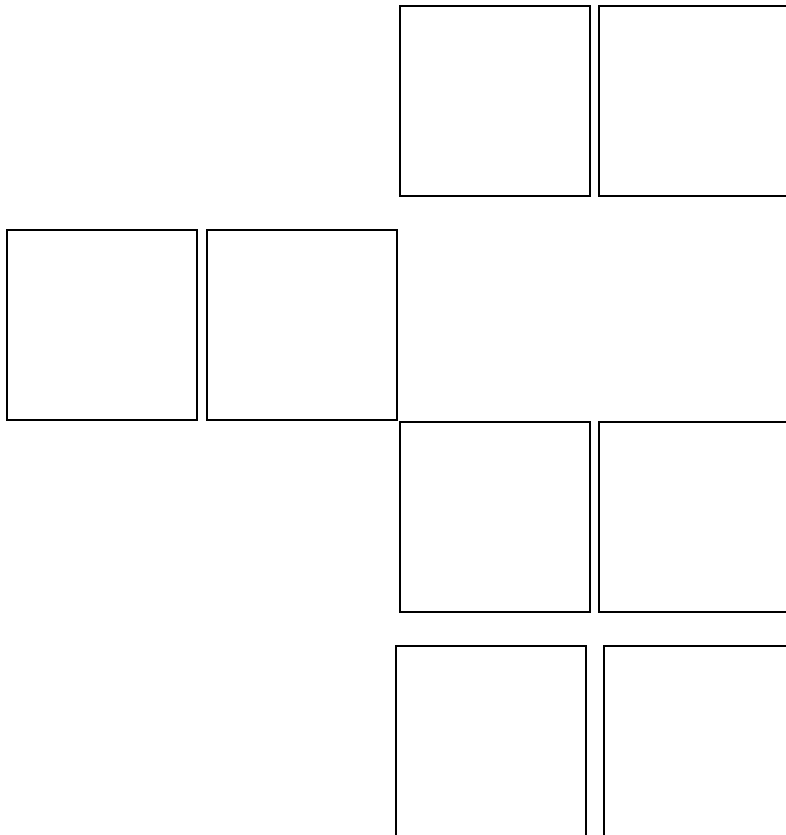

MARCH

- ❖ As a result of the training session carried out in our school by the participants in the mobility to England, 17 teachers have devised approximately 90 proposals of learning opportunities, which will contribute to the improvement of the first intellectual product.
- ❖ There have also been 24 curriculum-integrated formal activities, in several teaching subjects: Romanian, English, French, Maths, Physics, Chemistry, Biology, Drawing, ICT, Geography, Music, School Counselling and Professional Guidance. 665 students benefitted from these activities.

- ❖ Between 14/19-03/2016, two training activities,(teaching/learning), took place in SUNDSVALL, Suedia:
 - Short-term student-student exchange
 - Short-term common training activities for teachers

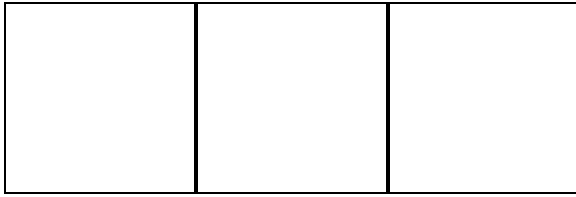

Our school was represented by prof. Simona Zepisi, project coordinator both at partnership and school level, Prof. Barbu Camelia Florentina and the students: Barbu Theodor, Zaharachescu Bogdan si Zepisi Andrei Laurentiu.

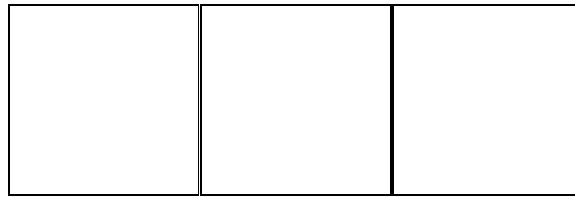

❖ On the 23rd of MARCH, there was a meeting between our teachers and representatives of The Local Authority in Environmental Protection, Valahia University, Targoviste, The Faculty of Environmental Engineering.

The agenda comprised:

- „Good practices in monitoring atmospheric pollution in urban areas, towards an efficient protection of children, raising awareness of the threats posed to health.” By Valahia University Targoviste.
- „7 Billion Dreams. A Planet of Moderate Consumption” – The Agency For Environmental Protection. Department of Toxic Waste and Dangerous Chemical Substances.
- Free Discussions.

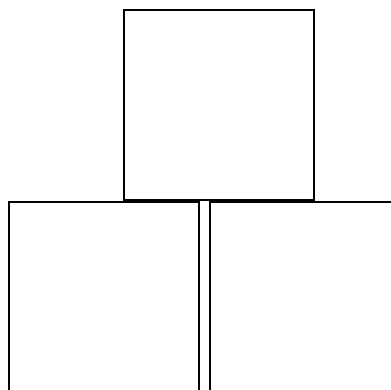

- ❖ On 25th March the pupils Zarnescu Andreea Giorgiana and Vlad Andreea Diana participated in the contest "Made for Europe", with the brochure "Pollution" and the album "About Us" being awarded a mention and the second prize.

- ❖ On the 29th and 30th of March, the 40 students of the target group visited The Institute of Scientific and Multidisciplinary Scientific Research of Valahia University.

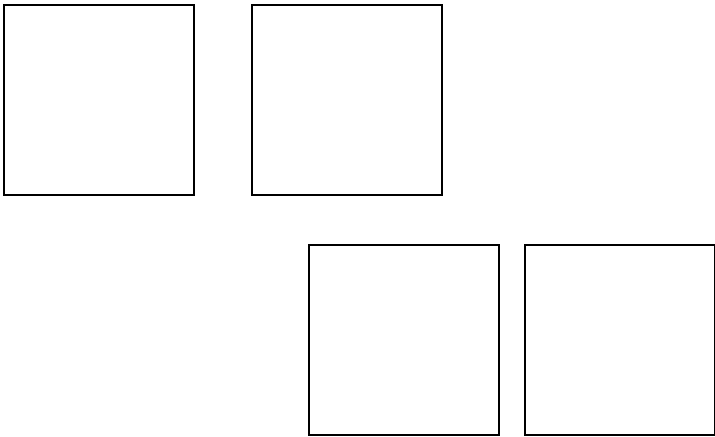

The aim of the activity was to observe the infrastructure and the research and development activity within Valahia University, in the field of renewable energy, innovative products and processes through the development of laboratories of The Institute of Scientific and Multidisciplinary Technology, focusing on their state-of-the-art equipment.

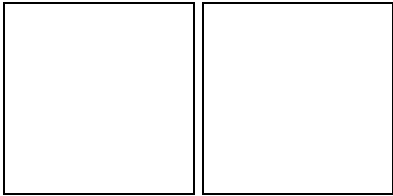

APRIL

- ❖ On the 6th of April, the students who participated in the activities in Sweden disseminated to their colleagues the content of the activities carried out there. The presentation was followed by a question-and-answers session.

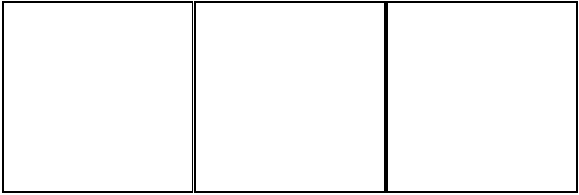

- ❖ On the 18th of April there was a conference of our students entitled “Sustainability Development and Energy Consumption for an Ecological Society” – which presented and developed the products and the results of the students who participated in the mobility selection process, as well as other products implemented by the students within formal and non-formal activities (36 materials by 60 students were presented here)

- ❖ As part of the celebration of “Earth Day”, a poster activity was organised on the 22nd of April, consisting of posters and drawings made by our students. The exhibition was accompanied by materials implemented by pupils from The Czech Republic and Italy.

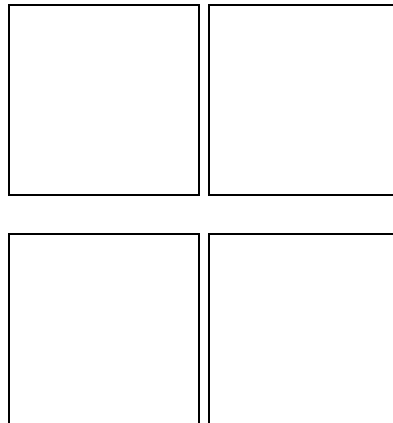

- ❖ In March and April the students carried out a study paper about the level of noise in Targoviste, which will be finalised in May.
- ❖ Street Campaign - promoting of the project in the city.

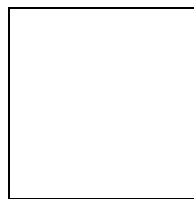

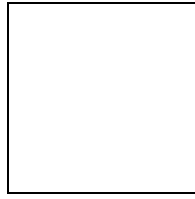

- ❖ On the 21st of April there was a simulation of a hazard situation of accidental pollution. The aim of the activity was to observe the interventional capacity of specialists in the case of an accidental pollution of a river and it was implemented by the Local Environmental Authority and Petrom. 17 students

participated. A similar activity will take place in MAY for the rest of the students in the target group.

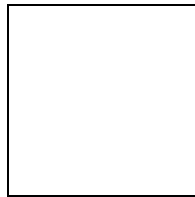

- ❖ Recycling week was innaugurated in April, collecting pets, plastic, batteries, paper, cardboard, cans. There will be competitions among the target group classes.

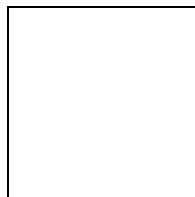

Czech Republic

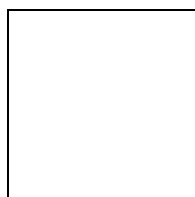

- ❖ We participated in the Exchange in Sweden and we present the stay and it's outcomes at school Assembly.

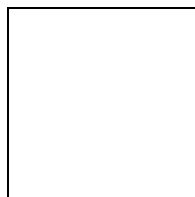

- ❖ We wrote the article about the Erasmus+ project and Swedish Exchange into school magazine.
- ❖ We did a whole school assembly about Environment, it was connected with Earth Day.

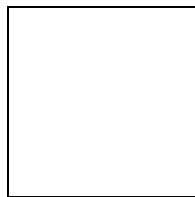

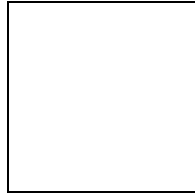

- ❖ We participated in the project Clean Czech Republic, students and teachers were cleaning and picking rubbish in Ostrava.

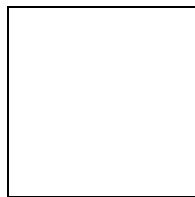

- ❖ We had the meeting with teachers involved in the project and we wrote suggestion for the environmental curriculum that is our intelectual output.

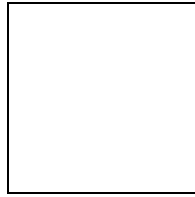

- ❖ We participated in Wave project-students from whole school wrote their commitments about the improving of environment. The cards with their commitments were put together and will be brought by electric car to UN in Switzerland where they will be part of the biggest postcard in the world.

- ❖ Teachers of the project participated in workshop about Sustainable Development Goals in education.

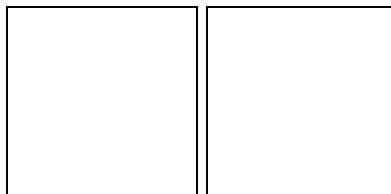

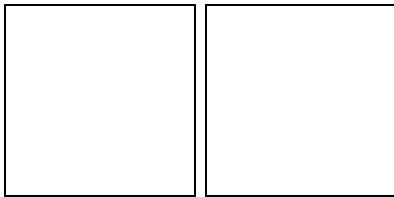

Italy

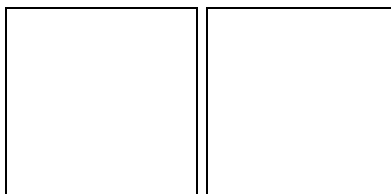

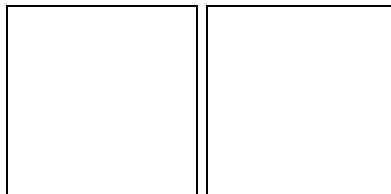

MARCH

- ❖ Lesson on Sustainable development are conducted during lessons of different subjects:

Chemistry Lab: Students, guided by prof. Ada Iannotta, took part in a workshop producing biodiesel.

- ❖ Creation of Power Point presentations about alternative and renewable energy sources in the province of Taranto for the Transnational learning, teaching and training activity for teachers and students in Sweden.

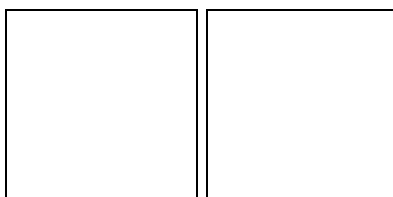

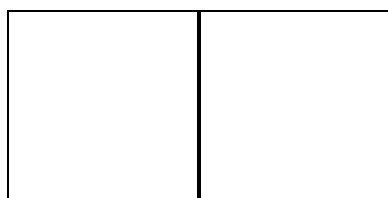

APRIL

- ❖ 14th April 2016 students, guided by prof. Maria Scarnera, took part in a workshop manufacturing Scented Chalks.

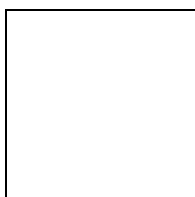

- ❖ Visit of the exhibition “From the age of the dinosaurs to the journey of human life”. Our students discover amazing facts about life, the planet, our environment and evolution.

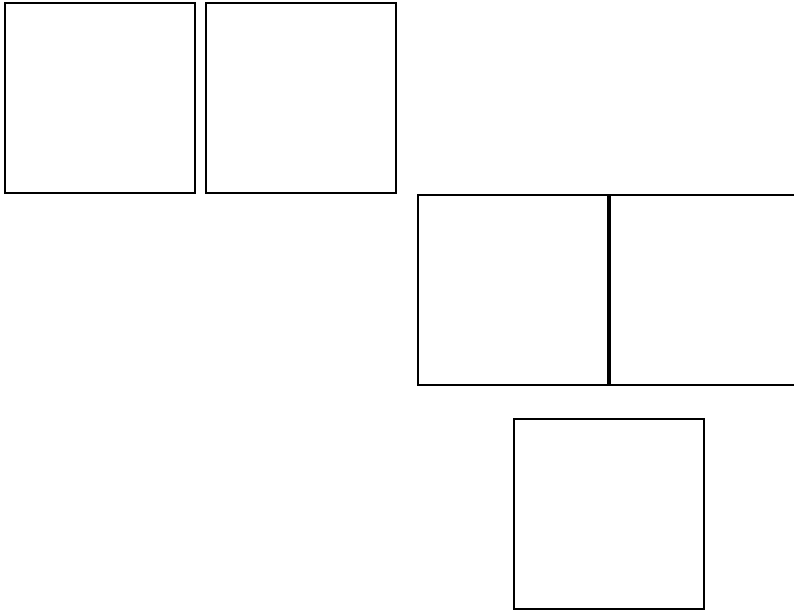

- ❖ Workshop on health and environment held by the International society of Doctors for the environment ISDE.

- ❖ Workshop about local environmental problems and solutions held by the association “TARANTO RESPIRA”.

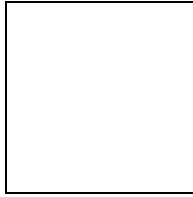

❖ Celebration of Earth Day.

❖ Realisation of a video by for the earth day in Rome

https://drive.google.com/file/d/0B_wBNcZQuscsWUN6VEZBWVzQ/view

Lithuania

- ❖ Biology Lesson related with Earth Day. Students discussed about problems and ways how to help our planet.

- ❖ Discussion with students: „The importance of Earth Hour” (during this hour all people in the world don't use electricity).

- ❖ Integrated Biology- History lesson “Dangerous situations related with water pollution in Lithuania and all the world”.

- ❖ Students (1-5 classes) had meeting with Organisers of „Let’s Do 2016“.

- ❖ All community took part in The action „Let’s Do 2016“

- ❖ Biology lesson „ How washing powder change water“
- ❖ Biology lesson „ How human can change nature“
- ❖ Biology lesson „ Ecology and Eco Systems“
- ❖ Primary Classes „How to save energy“
- ❖ Primary classes „ Animal Planet“. Students wached movies and discused about them.
- ❖ Geography Lesson „Our Nature is Our worth“
- ❖ Prie-primary class „Plants around us“
- ❖ English lesson Presentations: „How green am I“

❖ English lesson „Live and let live“ (animals in danger)

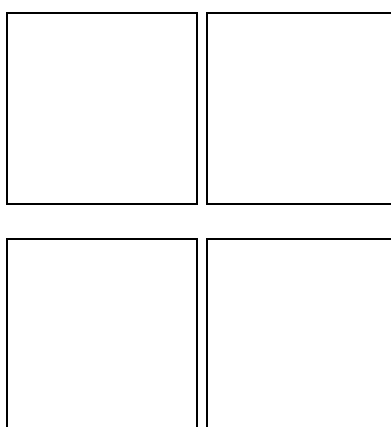

Poland

MARCH

- ❖ The geography blog run by students bilingual classes – Geo Travel

<http://zangeography.blogspot.com/>

- ❖ Students and teacher participated in the partnership meeting in Sundsvall, Sweden from 14th to 18th March. It was two training activities (teaching/learning) - Short-term student – exchange and Short-term common training activities for teachers.

- ❖ Information about the meeting in Sweden in a school and local website

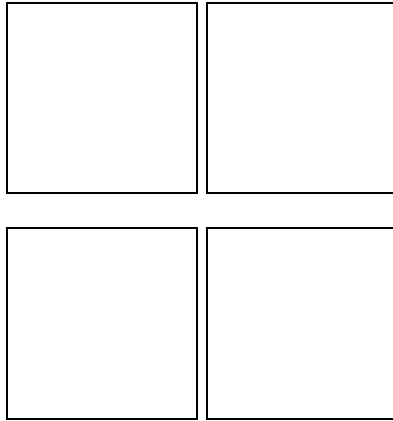

<http://zan.edu.pl/w-szwecji-nadal-panuje-zima/>

<http://zw.pl/news/licealisci-z-zana-z-wizyta-w-szwecji,131495>

- ❖ Essay competition about the greenhouse effect. Laureate will participate in the partnership meeting in Lithuania.
- ❖ First day of Spring – draw students to travel to Lithuania.
- ❖ Promotion of the project among the candidates for school.

APRIL

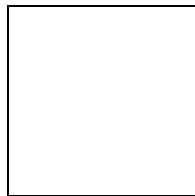

- ❖ Teachers of the project participated in workshop about Sustainable Development Goals in education.
- ❖ Promotion of the project during School Open Days.
- ❖ Ecological and chemistry workshops for pupils from primary school – “Following a route of natural and ecological mysteries”

- ❖ Information in a local website zw.pl

<http://zw.pl/news/szlakiem-przyrodniczych-i-ekologicznych-tajemnic,132161>

- ❖ The meeting at the school with a volunteer about life in Africa – “Mzungu – a white man on a black land”.

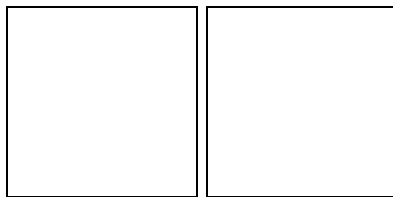

- ❖ Information in a local website zw.pl

<http://zw.pl/news/mzungu-czyli-bialy-czlowiek-na-czarnym-ladzie,132233>

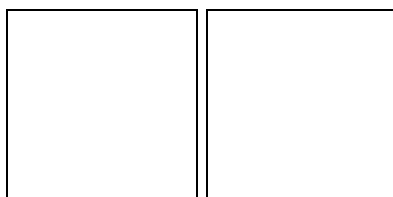

- ❖ I Interschool Competition about Ecology for primary school pupils.

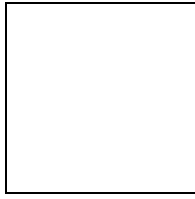

<http://zan.edu.pl/i-miedzyszkolny-konkurs-ekologiczny/>

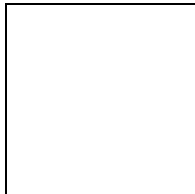

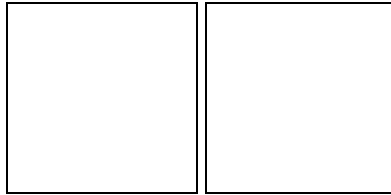

- ❖ Chemistry workshops for preschoolers in a Day of Earth.

<http://zan.edu.pl/licealisci-z-zana-z-wizyta-u-przedszkolakow/>

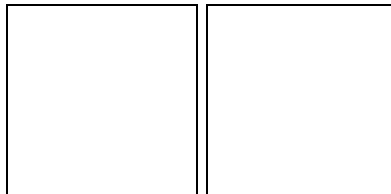

- ❖ The wall noticeboard about the Day of Earth.
- ❖ Geography lesson - Sustainable tourism.

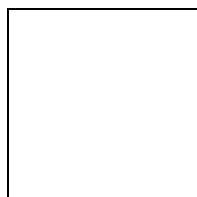

- ❖ The wall noticeboard about goals.
- ❖ A visit to Hydropolis, a museum of water.

- ❖ Information in a local website zw.pl

<http://zw.pl/news/zan-we-wroclawskim-hydropolis,132886>

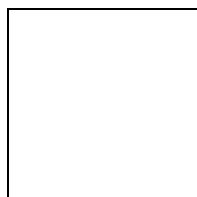

- ❖ Thanks for students from the last class involved in the project.

Portugal

MARCH

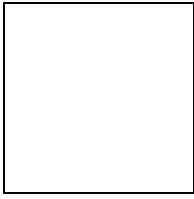

- ❖ School dissemination of the Training Session – “Towards a Sustainable Society” held in Lanchester.
- ❖ Formal Activity: Musical instruments made from recycled materials.

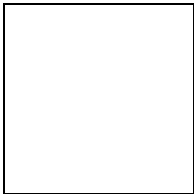

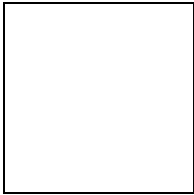

- ❖ Planing the trip to Sundsvall, where the second short-term learning activity of partnership took place.
- ❖ Taking part in the short-term learning activity in Sundsvall Sweden, from 14th to 18th March.
- ❖ Creating a video on the short-term learning activity held in Sundsvall, Sweden, and uploading it to the students Facebook group.
<https://www.youtube.com/watch?v=lUwcbWvBsVI>

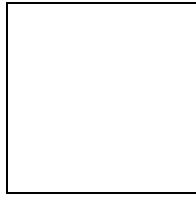

APRIL

- ❖ Non-formal activity: Workshop “Eco-journalists: Mission 3 R’s”
- ❖ Uploading photos of the non-formal activity to the project Facebook page.
- ❖ Updating the TwinSpace of the project on eTwinning.
- ❖ Formal activity: Figurative or imaginary landscape on *Climate Campaign – Pro a Sustainable Environment*.

- ❖ Celebrating Earth Day: “Exhibition “One Earth, One Chance”
- ❖ Non-formal activity: Open Labs.

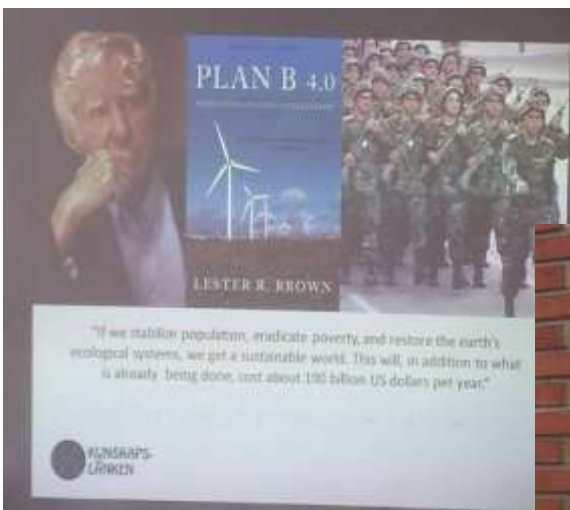

Sweden

MARCH

- ❖ This month began very very intensive with the preparation for the visit from 7 different partner schools. Students from the English 7 group prepared the welcome meeting, posters of the different countries, etc, etc. Natural science students prepared for the Gap-Minder workshop while students in the Electrical and energy stream prepared for the outdoor activity in Sidsjö together with the non-formal Forest school, logo workshops while the students from Childcare and leadership stream prepared for the fantasy animal workshop.
- ❖ Democracy Day was implemented in the municipality where about 100 students from the school participated. Democracy day is about young people's ability to influence and be included into a sustainable society. A half-day activities for the participating students.
- ❖ Collapsed curriculum activity on 1st of March “Health and welfare day” which was presented to the class in small groups. The reports to this activity will in the form of speed-dating with the guest teachers from the 7 partner countries on week 11.

- ❖ “Trip to the future”, a half-day activity, which is about sustainable management and efficient use of natural resources such as forest products and forest industry was organised on March 3 at the school.
- ❖ Work on environmental project in ESL, which was actually starts up in January was completed and will be presented to the guests on week 11. 30 students continued their work on sustainability issues which will also be presented to international Erasmus+ visitors.

- ❖ On Sunday, 13th of March, 30 students and teachers from the partner school started arriving. It was a very stressful day since spring break was still on and many families were out in the mountains enjoying the last of the snow. The last group arrived at 23.54 and the host families along with teacher Peder Berglund were waiting for them in the train station to welcome them.
- ❖ The whole week was planned to the minute details. Monday 14/3, began with welcoming meeting and the traditional Swedish “Fika” and later a tour around the school.

The welcome meeting on 14/3/2016

- ❖ The school day ended with a trip to the local forest industry SCA where the guests get a chance to see how papers are produced.

- ❖ The guest teachers participated in all kinds of activities such as human rights, speed-dating the students and learning from the students about Gap-minder. They even get a chance to listen to our Anna Hassani and Mathias Sundin on the local problems and county councils new environmental venture on

Biofuels and Electric cars which led to a trip to the Northern mountains on electric cars.

- ❖ Teachers from eight different countries on the Northern mountain, enjoying the Swedish spring.

- ❖ The students get a chance to enjoy our environment friendly adventure swimming pool, logo workshop, create fantasy animals, visit the hydropower plant, and even try out cross-country skiing, snow shoes, sledges, baking twister and making hot chocolate in the tranguia stove. Even if it was really slushy since the snow was melting, one one seem to care.

❖ Snow shoes can be fun and so are hot dogs and hot chocolate on a sunny but slushy spring day.

Hydro-power plant with Kaj Englund from Vattefall AB

The winning logo ACEAFNE

Fantasy animals (ERASMUS) and the PIGGY created from recycle material

Team work : "YES WE CAN"

Göran Wågström's Chemistry lesson

Traditional Swedish evening followed by farewell dinner

- ❖ The week passed very fast and before we realise it it was time for the guests to leave. Many guest students didn't want to go home leaving their new-found friend and some even cried. Au Revoir for now but don't forget YOU ARE ALWAYS WELCOME BACK 😊

UK

MARCH & APRIL

- ❖ Staff Training held following the Training Workshops in January
- ❖ Preparation Meetings for Sweden Visit
- ❖ Assembly held with girls going to Sweden
- ❖ Ava and Zoe presented to the whole school about their visit to Sweden and what they learnt during their time there
- ❖ Whole School Assembly was held to discuss the progress of the project and to share new ideas and lessons
- ❖ Parents were informed about the opportunity for their children to be involved in the exchange to Lithuania
- ❖ Erasmus+ Corner and display improved and built upon
- ❖ Liaised with Richard Hurst on the Curriculum
- ❖ Read and researched more information re the Curriculum
