

## Final questionnaire for head teachers (12)

The aim of this questionnaire is to collect information about your personal views regarding the implementation of this Erasmus+ project in your school so that its effectiveness and impact can be assessed.

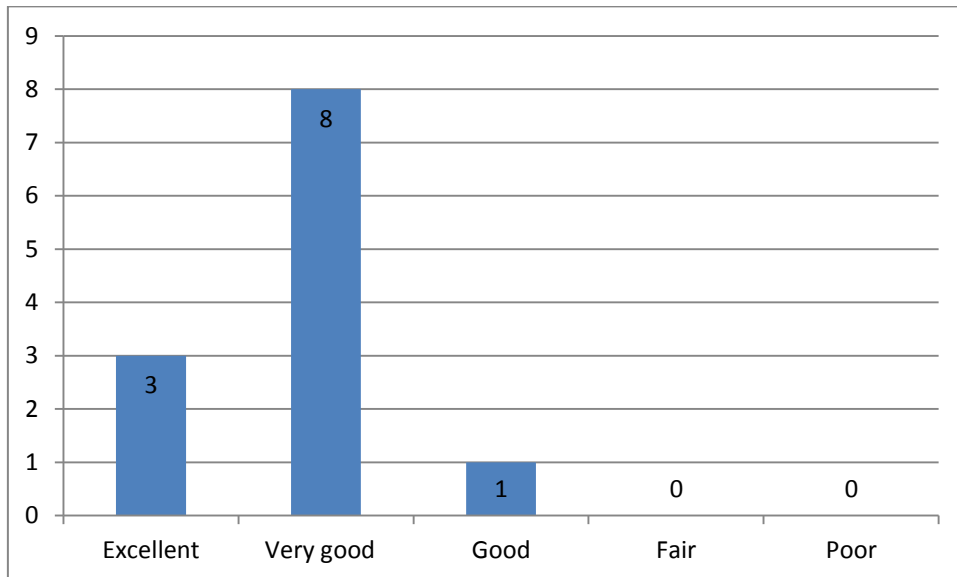

**1. In your opinion, what benefits has your school achieved from this project? (Mark as many as apply)**

- a) Development of teachers' and students' leadership and teamwork skills.
- b) Development of critical thinking, investigation, analytical and decision-making skills in students.
- c) Increased awareness of environmental and sustainable development issues through activities linked to curricular subjects and areas.
- d) A more active citizenship.
- e) Higher standards in environmental education and management.
- e) Reinforcement of the European dimension of school education.
- f) Opportunity to establish long-term partnerships with local/national environmental organisations/stakeholders.
- g) Growth in students' self-reliance and improved attitudes toward learning.
- h) Increased student attendance and lower dropout rates.
- i) Other (Please, specify)

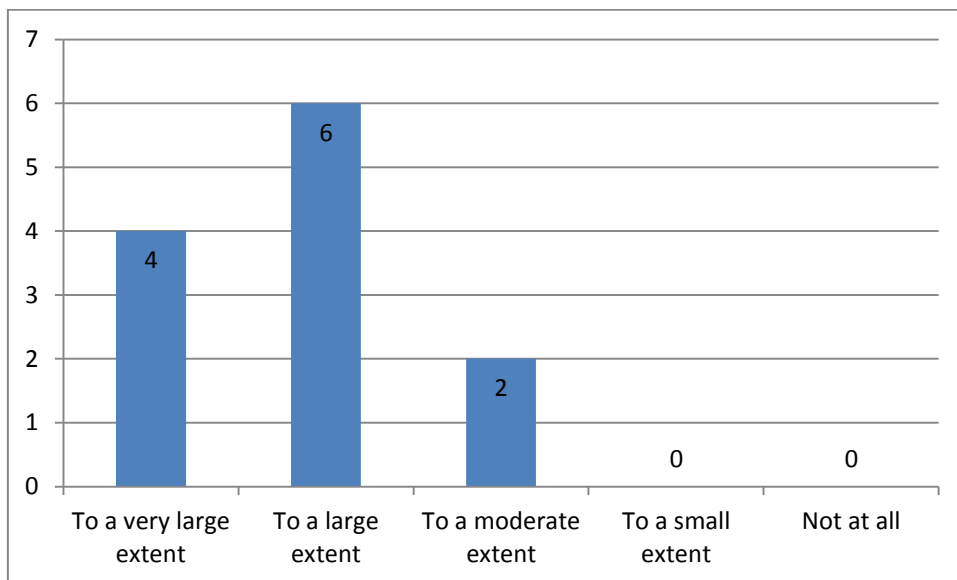

2. After having developed this project, how would you rate your organisation's capacity concerning the approach to education within the framework of long-life learning?

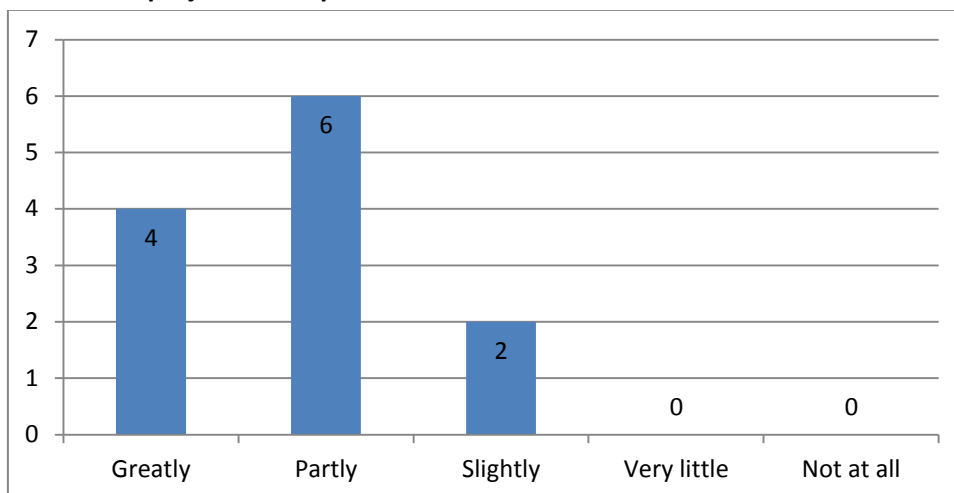

3. In your opinion, have the participant teachers in your school successfully managed to integrate environmental issues into the school curriculum?

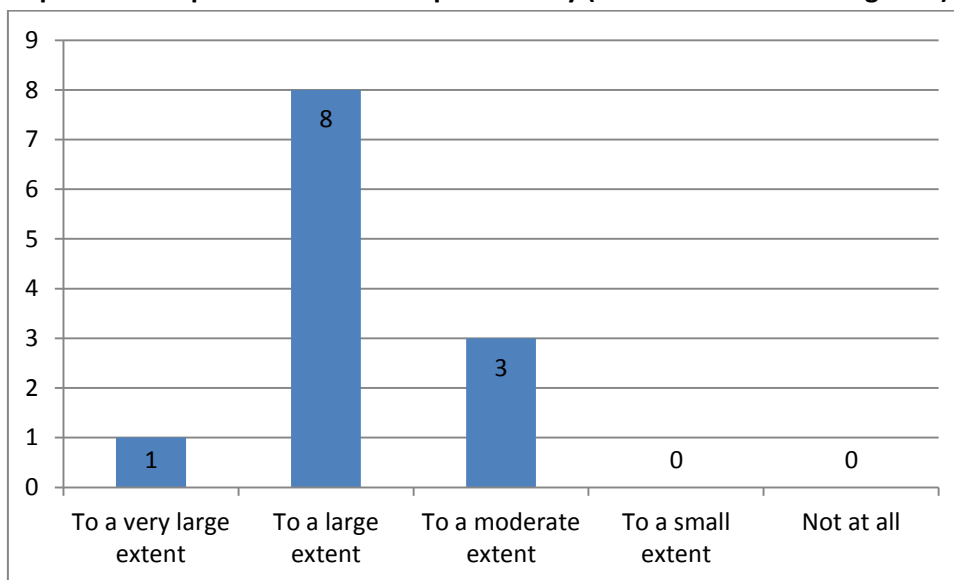

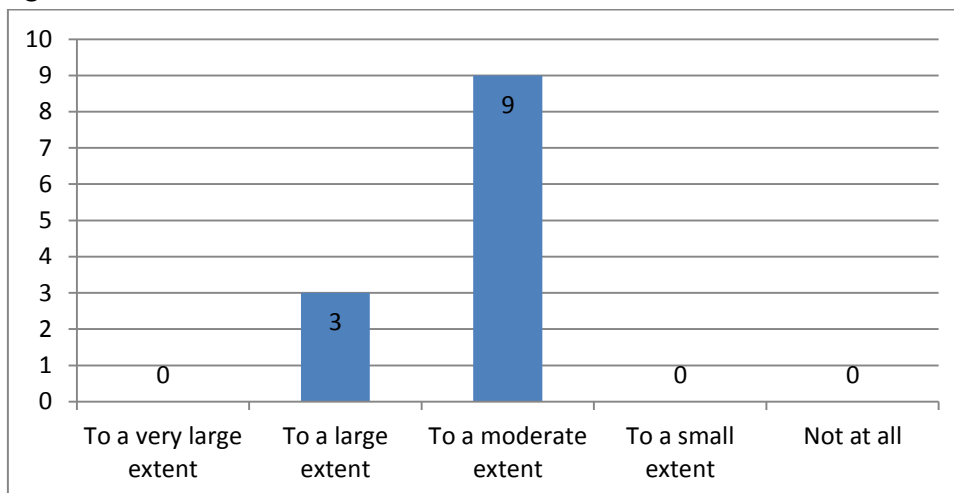

4. Do you think this project has improved the internal educational climate?

5. Has it improved interpersonal relationships vertically (school board - teaching staff)?

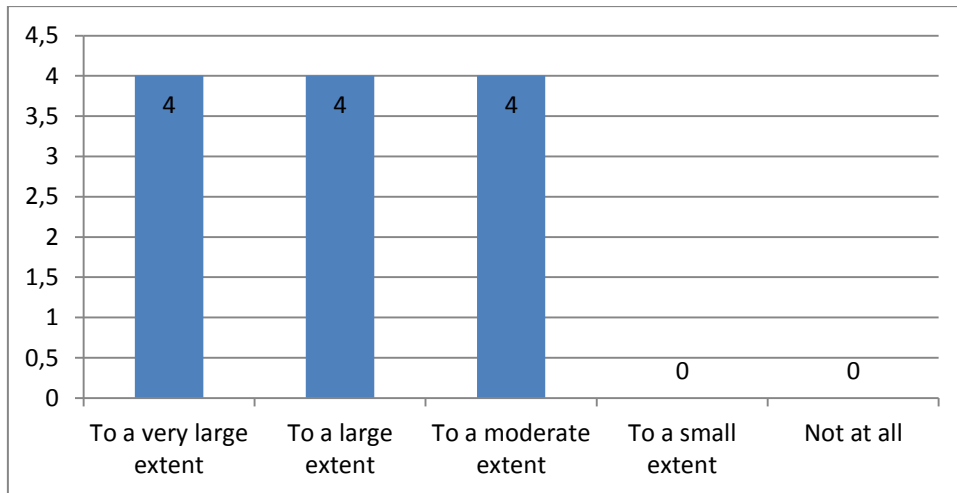

6. By means of the exchange of good practices, has it produced changes in management planning?

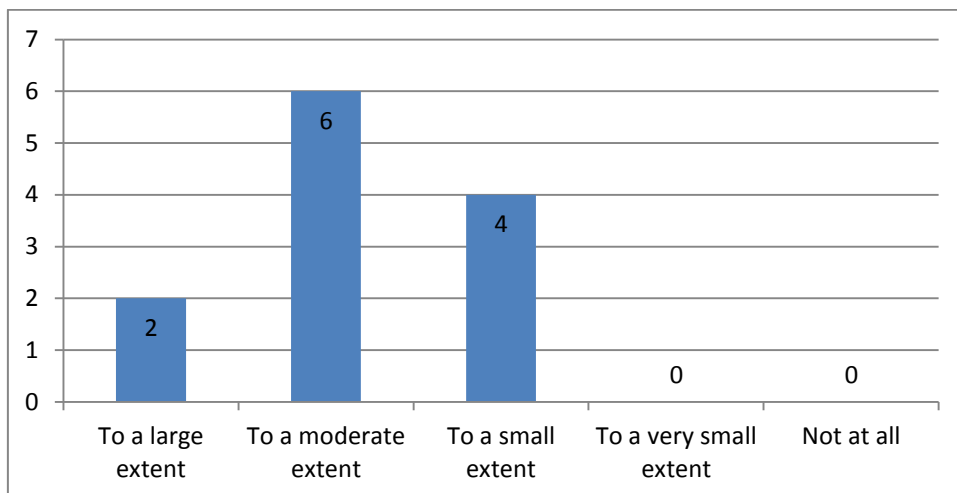

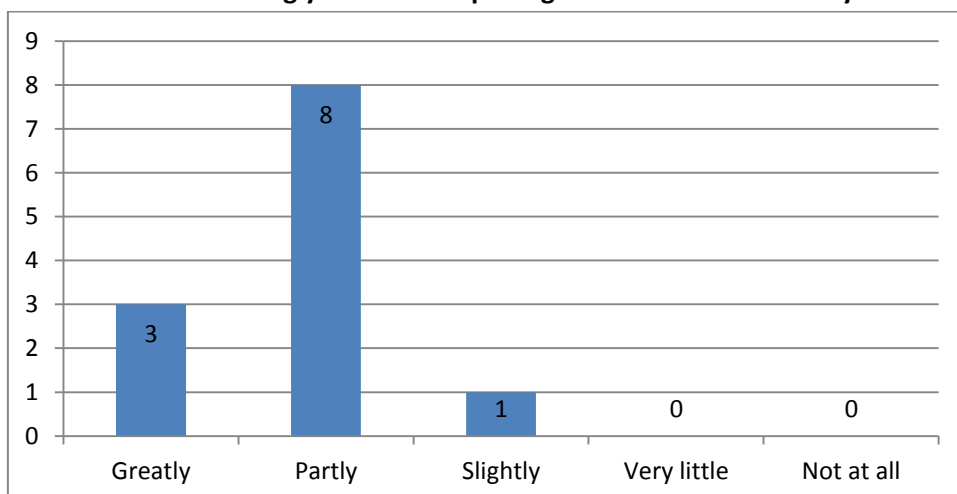

**7. Has it strengthened the European dimension of education in your school (by adopting and putting into practice European educational strategies)?**

**8. Has it created a more attractive academic environment for students?**

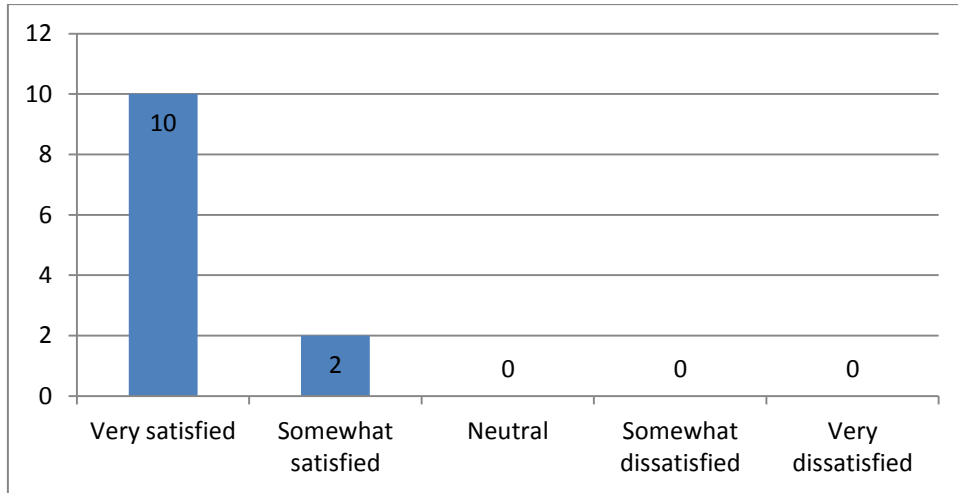

**9. Has it contributed to boosting your school's prestige in the local community?**

10. How would you rate your overall satisfaction with your school's involvement in this project?
