

Final questionnaire for teachers (127)

The aim of this survey is to gather information about the impact that this project has had on your professional practice and professional development, namely on integrating environmental education into your teaching practice.

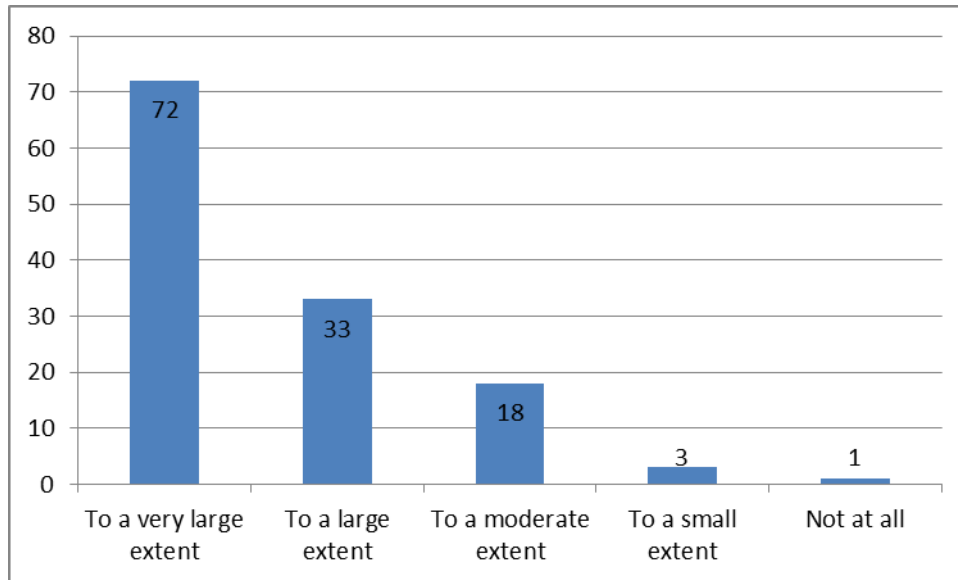

- Has your participation in this project increased your level of awareness of the world's environmental problems?**

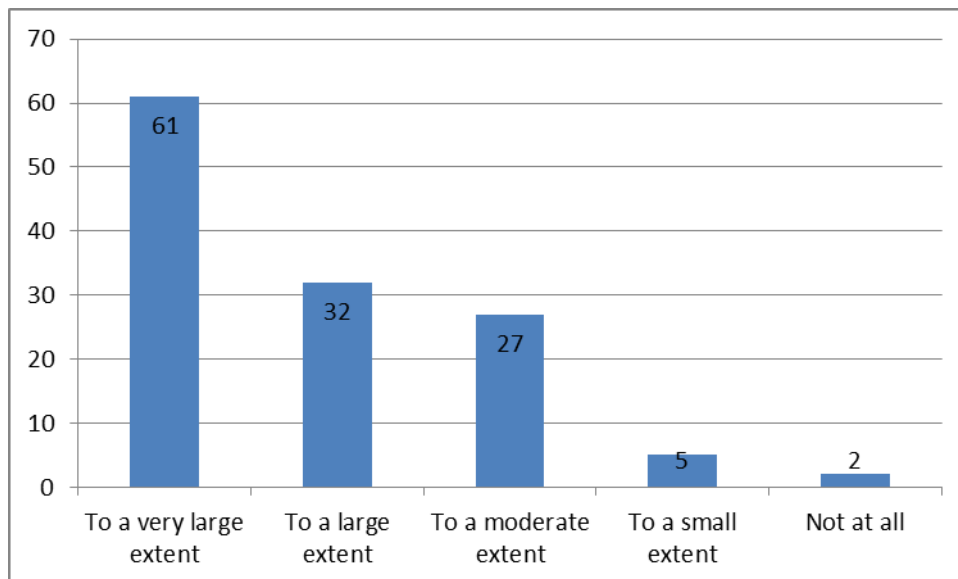

- Has this project helped you incorporate ESD (Education for sustainable Development) into your teaching practice?**

3. Has it provided you with new tools/methodologies/strategies to approach the topic of environmental education in a formal and non-formal context?

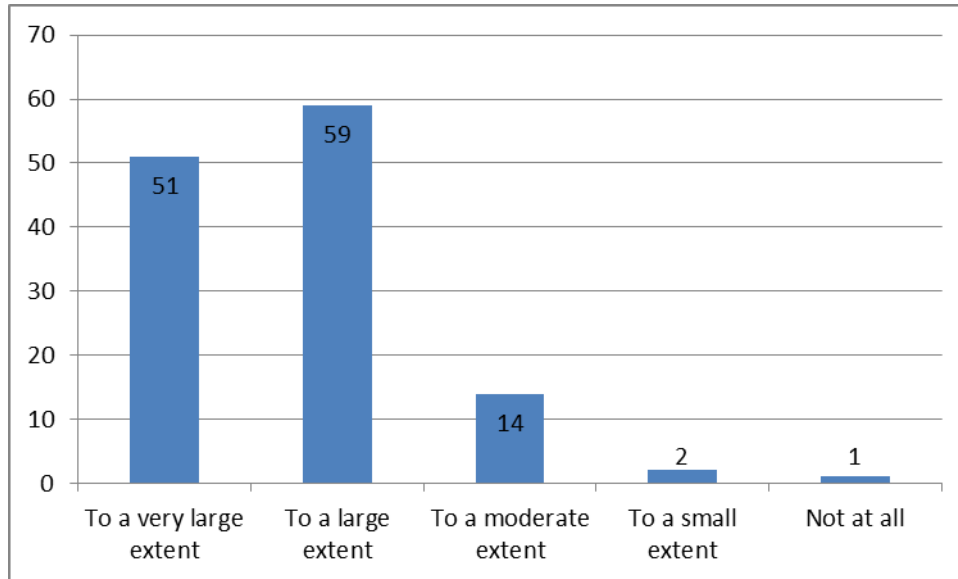

4. Has it increased your knowledge of the ICT tools that can be integrated into the teaching of environmental issues in your subject area?

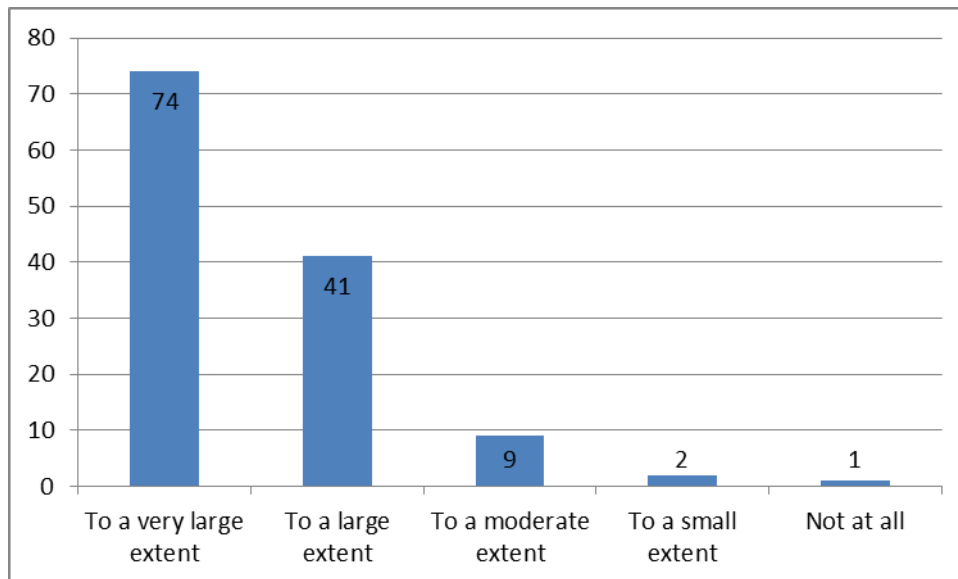

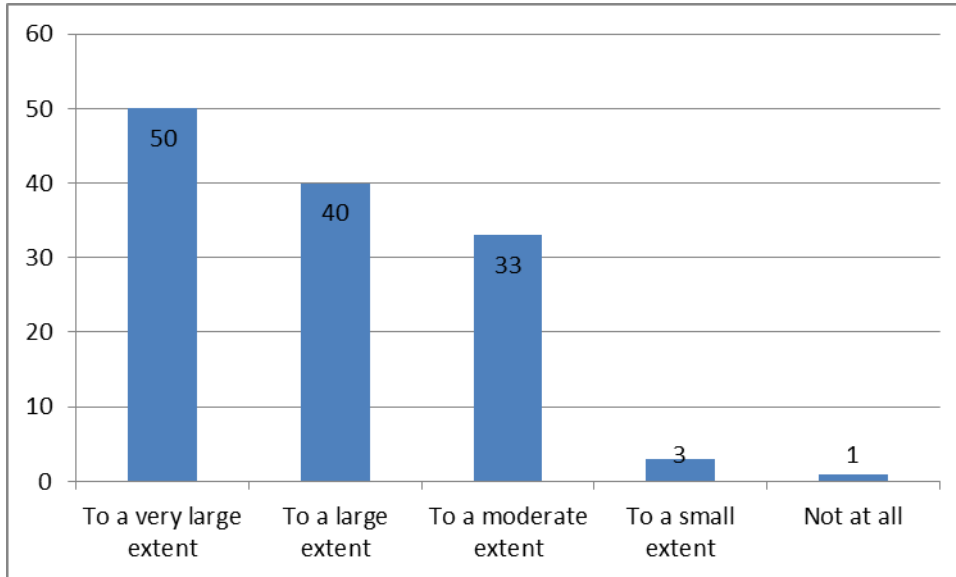

5. Do you now feel more confident to design/implement activities/projects on sustainable development within your subject area?

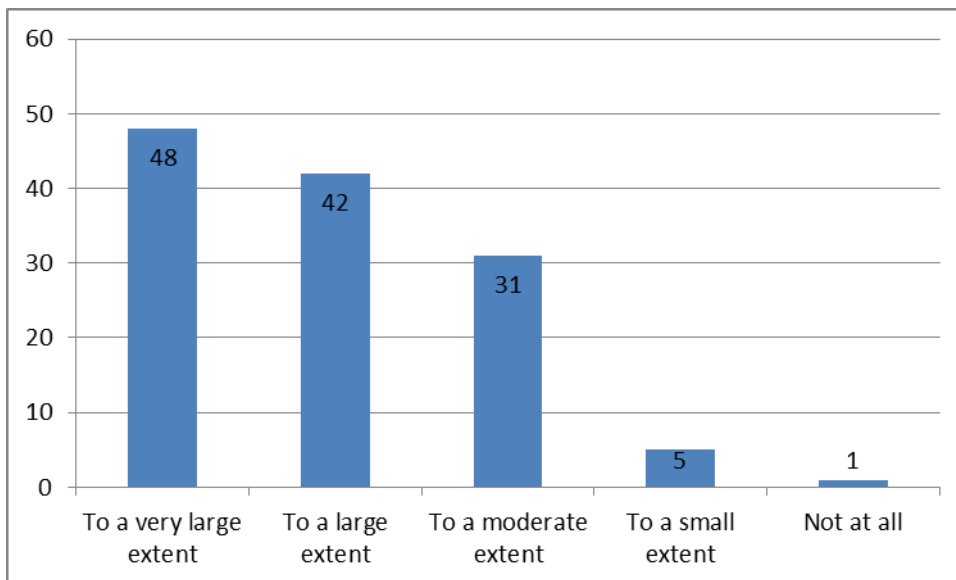

6. Do you now feel more confident to motivate and stimulate students to take part in formal/non-formal environmental-related activities?

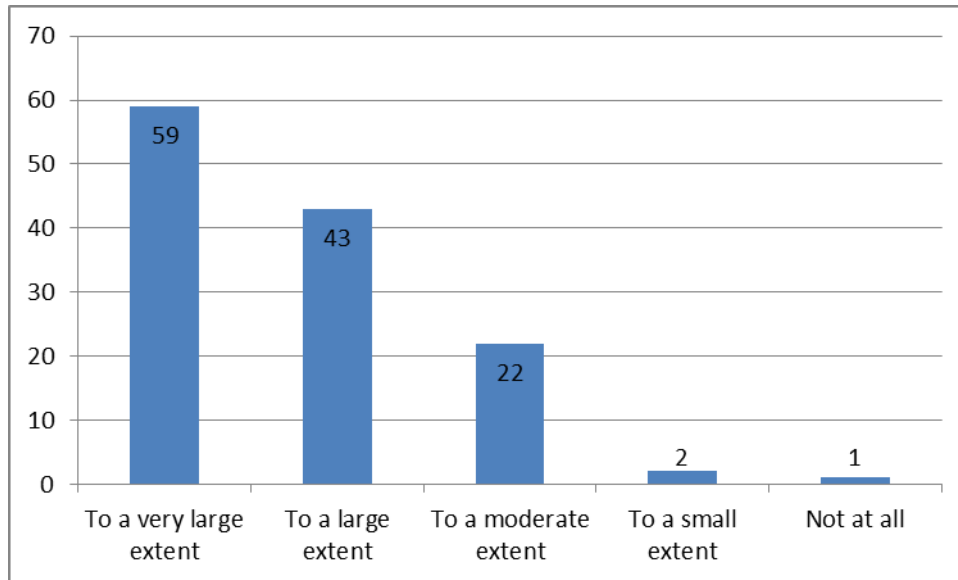

7. Has your competence in teaching transversal skills such as teamwork, creativity, problem solving, and decision making been improved by this project?

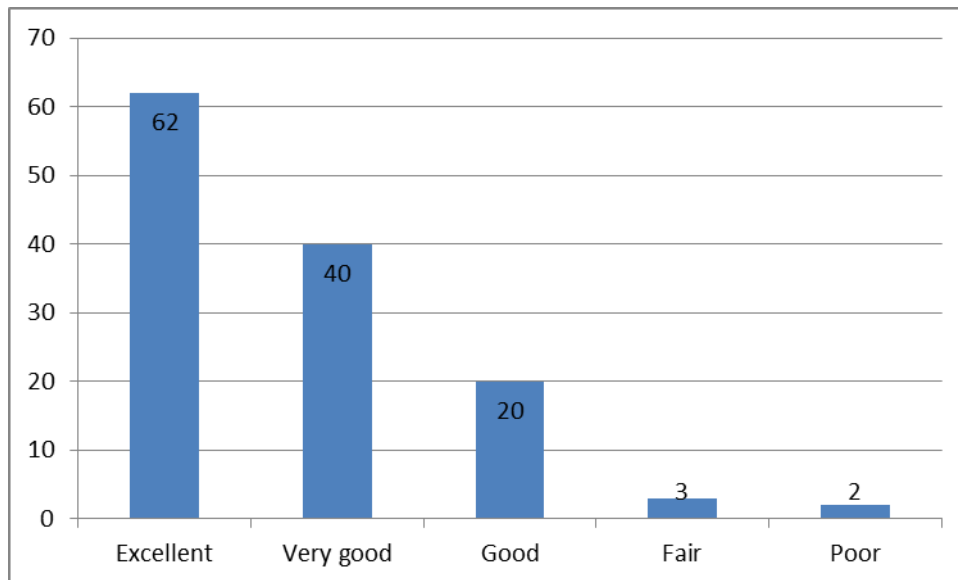

8. Have your teaching skills benefited from the exchange of good practices within this project?

9. Overall, do you think this project has improved your professional practice and professional development?

10. How would you rate the balance between the work/effort required by this Erasmus+ Project and its benefits?
